

## Multi-function Silicon Edge Sewing Machine

JC MACHINERY & TOOLS INC.

MT-KC01-V3

### Upgrade Items and Advantages

- The surface of conveyor is upgraded to felt-matte reinforced material, which increase the friction during transfer especially for light weight and smooth fabrics.
- Reverse rewinding of conveyor is added.
- Improved the parameters of silicon strip feeding device that can increase the silicon strip feeding accuracy, which is more suitable to extra-long edge processing
- Signal collected from sewing head output directly and improved the accuracy of conveyor movement.
